

Response

An integral part of our cyber policy, our award-winning mobile app Response gives policyholders access to a range of proactive cybersecurity tools and services.

Here's what this valuable tool has to offer:

Access to CFC's cyber risk management tools

- 1 **Phishing simulations** – Targeting members of your team whose credentials are the most vulnerable, these simulations send mock phishing emails in order to raise awareness of this criminal tactic.
- 2 **Dark web monitoring** – This tool scours the dark web for information relating to your business, including corporate login credentials and other breaches of sensitive data relating to your domain name.
- 3 **Deep scanning** – This service actively scans the external client network footprint to identify claims correlated vulnerabilities that lead to cyber attacks and ransomware.
- 4 **Cybersecurity advice** – The “Ask the Expert” section of Response allows users to get in touch with our specialist team for help with cyber risk mitigation, best practices, cybersecurity services on offer, and more.
- 5 **Real time threat alerts** – Through continuous monitoring of our customers and analysis of the latest cyber claims, our team is able to spot problems fast. Through Response, we send policyholders critical alerts specific to their business along with guidance on how to rectify any issues.

+ ... and instant notification of claims

Suffering an incident? The app allows you to instantly notify our specialist team if you have an issue. This feature of Response triggers an immediate call-back from our experience team of responders.

For a free trial, use demo code DEMOCFC000 to sign up.

The app is available on the [App Store](#) or [Google Play](#).
