Award-winning cyber claims team

Our in-house team has over 25 years' experience handling cyber claims.

We resolve more than 4,000 cyber claims annually, ranging from ransomware attacks to data breaches, business interruption and more.

Both our team and the client were extremely happy with the outcome, and the way the team conducted themselves throughout the claims process. Understanding claims of this magnitude takes time. They were realistic, they advocated for an interim payment, gave continuous updates and were always available – we are extremely grateful for that.
